B. Project Location (limits, city, county): ______
   □ Illustration/graphic/map of project area is applicable and attached to this Exhibit A.

C. Project Scope (allowable costs: describe project components, improvement type/service type, approximate timeline, project schedule, project size): ______

D. Deliverable(s): ______

The project scope identifies the ultimate project deliverables. Deliverables for requisition, payment and invoice purposes will be the incremental progress made toward completion of project scope elements. Supporting documentation will be quantifiable, measurable, and verifiable, to allow for a determination of the amount of incremental progress that has been made, and provide evidence that the payment requested is commensurate with the accomplished incremental progress and costs incurred by the Agency.

E. Unallowable Costs (including but not limited to): ______

F. Transit Operating Grant Requirements (Transit Only):

Transit Operating Grants billed as an operational subsidy will require an expenditure detail report from the Agency that matches the invoice period. The expenditure detail, along with the progress report, will be the required deliverables for Transit Operating Grants. Operating grants may be issued for a term not to exceed three years from execution. The original grant agreement will include funding for year one. Funding for years two and three will be added by amendment as long as the grantee has submitted all invoices on schedule and the project deliverables for the year have been met.

Contract No.: _______________________
Date: ________________________________

The assurances herein shall form an integral part of this grant agreement (Agreement) between the State of Florida Department of Transportation (Department) and the Agency.

This Agreement is a Deferred Reimbursement Agreement. A “Deferred Reimbursement Agreement” means an agreement wherein the Agency chooses to begin a project in advance of the year in which the project or funding is programmed in the Department’s adopted work program. Such agreements may sometimes include funding in the state fiscal year in which the agreement is executed. Costs eligible for reimbursement can only be incurred after the execution date of the agreement.

If the annual amount appropriated and available for reimbursement differs from that shown in this Agreement for any fiscal year, the Department will provide written notification each year indicating the actual amount appropriated and available for reimbursement. No such notice shall be provided if the available funds match those identified in this Agreement.

The Agency may invoice the Department after August 1 of the fiscal year(s) the project funding is programmed in the adopted work program as of the date of execution of the Agreement and only for actual costs incurred. After receipt of a properly documented invoice, payment(s) will be made to the Agency as follows (select one of the following options):

☐ If this Agreement is federally funded, lump sum, up to the amount of costs incurred after the execution of the Agreement, beginning in the year(s) the project is scheduled in the Department’s Work Program as of the date of execution of the Agreement.

☐ If this Agreement includes individual Department fiscal years in which the amount of Department funding is two (2) million dollars or less in state funds, the reimbursement payment for each of those years will be made in a lump sum in such year as defined in this Agreement.

☐ For years in which the amount of Department funding in the work program is greater than two (2) million dollars, the reimbursement payment for such years will be made in ten (10) equal quarterly payments in accordance with the schedule below:

2. **Eligibility.** The Department shall provide block grant funds for eligible capital and operating costs of public bus transit and local public fixed guideway projects. Eligibility of this Agency to receive grant funding is provided in Section 341.052(1), F.S., and Sections 5307 and 5311 of the Federal Transit Act, 49 U.S.C. 5307, and 49 U.S.C. 5311 respectively.
   
   a) Eligible transit capital costs means any costs that would be defined as capital costs by the Federal Transit Administration.
   
   b) Eligible transit operating costs are the total administrative, management, and operation costs directly incident to the provision of public bus transit services, excluding any depreciation or amortization of capital assets.

3. **Local Revenue Limits.** Block grant funds shall not exceed local revenue during the term of this Agreement. Local revenue is defined as the sum of money received from local government entities to assist in paying transit operation costs, including tax funds, and revenue earned from fare box receipts, charter service, contract service, express service and non - transportation activities.

4. **Supplanting Local Tax Revenue.** Block grant funds shall not supplant local tax revenues made available for operations in the year immediately preceding this Agreement.

6. **Required Audit.** The Agency shall require the independent auditor, retained to perform the audit as required by the Single Audit Act of 1984, to specifically test and certify that these limitations (…funds shall not exceed local revenue...funds shall not be expended for depreciation or amortization of capital assets...funds shall not supplant local tax revenues made available for operations in the previous year) of the block grant program as delineated in Section 341.052, F.S., have been adhered to.

7. **Required Budget.** The Agency shall provide the Department with two (2) copies of its most current adopted budget by March 1. Unless the adopted budget uses a format consistent with the National Transit Database (NTD) report, the copy provided to the Department will indicate how the projections for total local revenue, local tax revenue made available for operations, and depreciation and amortization costs, as they will appear in the NTD report, can be identified.

8. **Required Publication of Productivity and Performance Measures.** The Agency shall publish in the local newspaper of its area, in the format prescribed by the Department, the productivity and performance measures established for the transit providers most recently completed fiscal year and the prior fiscal year. This report shall be approved by the Department prior to its publication. This report shall be submitted to the Department no later than November 15 of each year, and published either by December 31 or no later than twenty-eight (28) calendar days of the Department's written approval of the report. The Agency shall furnish an affidavit of publication to the Department within twenty eight (28) calendar days of publication.
9. **Annual Plan or Update.** The Agency shall submit a Transit Development Plan (TDP) or annual update to the Department by September 1 of each year.

   a) As a separate part of the transit development plan or annual report, the Agency will address potential enhancements to productivity and performance which would have the effect of increasing farebox ratio pursuant to Section 341.071(2), F.S.

10. **Safety Requirements.** Mark the required Safety submittal or provisions for this Agreement if applicable:

    - **Bus Transit System** – In accordance with Section 341.061, F.S., and Rule 14-90, Florida Administrative Code, the Agency shall submit, and the Department shall have on file, an annual safety certification that the Agency has adopted and is complying with its adopted System Safety and Security Program Plan pursuant to Rule Chapter 14-90 and has performed annual safety inspections of all buses operated.

    - **Fixed Guideway Transportation System (established)** – In accordance with Section 341.061, F.S., the Agency shall submit, and the Department shall have on file, annual certification by the Agency of compliance with its System Safety and Security Program Plan, pursuant to Rule 14-15.017 and the “Safety and Security Oversight Program Standards Manual”, DOT Topic Number 725-030-014.

    - **Fixed Guideway Transportation System** – This applies to New Starts projects and subsequent major projects to extend, rehabilitate, or modify an existing system, or to replace vehicles and equipment. In accordance with Section 341.061, F.S., the Agency shall submit a certification attesting to the adoption of a System Safety Program Plan pursuant to Rule 14-15.017 and the “Safety and Security Oversight Program Standards Manual”, DOT Topic Number 725-030-014. Prior to beginning passenger service operations, the Agency shall submit a certification to the Department that the new start system or major modification to an existing system is safe for passenger service.

    - **Not Applicable.**

11. **Transit Vehicle Inventory Management.** The Agency will follow the Department’s Transit Vehicle Inventory Management Procedure (725-030-025), which outlines the requirements for continuing management control, inventory transfer and disposal actions. This procedure pertains ONLY to capital procurements of rolling stock using the FTA Section 5310, Section 5311, Section 5316 or Section 5317 programs as the funding source, or where the Department participates in 50% or more of the public transit vehicle's purchase price. This may include vehicles purchased under the State Transit Block Grant Program, State Transit Corridor Program, State Transit Service Development Program, or other applicable Departmental programs.

12. **Formula Information.** As authorized in Section 341.052, F.S., the annual appropriation in the program is divided by formula and then distributed to each eligible transit system. The formula described below is adjusted each year based on data received from the transit systems’ federally required National Transit Data (NTD) report. A copy of the NTD report is required to be sent to the Department each year.

    Distribution is accomplished through a multiple step process. 15% of the appropriation is given to the Commission for the Transportation Disadvantaged to be distributed to the Community Transportation Coordinators in accordance with Chapter 427, F.S. The remaining 85% is divided into three equal portions. Each eligible transit system gets a percentage of the first portion based on their percentage of total population served; the second portion is allocated based on their percentage of total revenue miles of service provided;
and the third portion is allocated based on their percentage of total passengers carried. The total from all three portions is the total available allocation for each eligible transit system in the state.

This exhibit forms an integral part of the Agreement between the Department and the Agency.

1. **Conformance with Enabling Legislation.** This Agreement is in conformance with Section 5305(d) of the Federal Transit Act (49 U.S.C. 5305(d)) and Chapter 341, F.S.

2. **Adherence to Certifications and Assurances.** The Agency shall ensure adherence to the various Federal requirements documented in FTA (formerly UMTA) Circular 8100.1a, including Title VI of the Civil Rights Act of 1964, Disadvantaged Business Enterprise requirements, and the Americans with Disabilities Act of 1990, and all other federally required certifications and assurances made in its application to the Department for Section 5305(d) funds.

3. **Adherence to Federal Planning Requirements.** The Agency shall adhere to all applicable planning requirements established and set forth by the U.S. Department of Transportation, including development and timely submission of its Transportation Improvement Program (TIP) and annual/biennial element and Unified Planning Work Program (UPWP).

4. **FTA Compliance.** The Agency shall comply with any special conditions imposed by the Federal Transit Administration (FTA) as a condition of grant approval. Costs incurred prior to execution of this Agreement cannot be charged to the grant. Costs incurred by the Agency to prepare and file an application are not eligible Project costs.

5. **Formula Information.** This program is authorized under 49 U.S.C., Sections 5305, and USDOT, FTA Circular C 8100.1C, *Program Guidance and Application Instructions for Metropolitan Planning Program Grants*, dated September 1, 2008, as amended. The Intermodal Surface Transportation Efficiency Act of 1991, as amended (ISTEA) has divided Metropolitan Planning Program (MPP) authorizations into two categories: 80 percent is designated for basic MPP work, with the remaining 20 percent designated for supplemental assistance. FTA combines both the basic and supplemental MPP assistance for each state when FTA publishes its annual apportionment notice in the Federal Register. The ISTEA also prescribes different formulas for apportioning and allocating basic and supplemental MPP assistance, as described below:

   a) **Basic MPP Assistance.**

      1) FTA apportions 80 percent of the available MPP assistance to the states, based on the ratio equal to the population in each state’s urbanized areas divided by the total population in urbanized areas in all the states, as shown by the latest available decennial census prepared by the U.S. Bureau of the Census. If necessary, FTA is required to make adjustments to that formula to assure that each state is apportioned a minimum amount of .5 percent of this 80 percent basic assistance.

      2) Each state must then allocate its MPP assistance to its MPOs consistent with the FTA-approved formula the state has developed with its MPOs.
b) **Supplemental MPP Assistance.**

1) FTA then apportions the remaining 20 percent of the MPP assistance to the states to supplement costs experienced by MPOs in carrying out MPP activities. FTA's administrative formula for apportioning the remaining 20 percent focuses on the planning needs of the larger, more complex metropolitan areas.

2) The state must then allocate this supplemental MPP assistance consistent with a formula reflecting the additional costs its MPOs have experienced in carrying out the requisite planning, programming, and work selection necessary for the metropolitan area to comply with the various federal transportation requirements.

Note particularly, that states must allocate to each of its MPOs at least as much MPP assistance as that MPO received in federal fiscal year 1991. The Department uses the federally published allocations to program and make available the funding under the Section 5303 program to local agencies. The State program procedures Topic no. 725-030-040, Section 5303 Program, require the Districts to use the same federal allocations when preparing agreements with local agencies.

Any charter service provided under one of the exceptions must be “incidental,” i.e., it must not interfere with or detract from the provision of mass transportation.

7. **Exclusive Operation.** Pursuant to 69 U.S.C. 5323(f) and 49 CFR 605, the Section 5310 subrecipient may not engage in school bus operations exclusively for the transportation of students and school personnel in competition with private school bus operators, unless qualified under specified exemptions. When the Agency accepts the 5310 funding, enters into a contract/PTGA with the Department, and contracts with the Community Transportation Coordinator to provide rural general public transportation in the same service area in which the Community Transportation Coordinator is providing non-sponsored trips for the Commission for the Transportation Disadvantaged, then the non-sponsored human service transportation grant funds will be considered as eligible match for the 5310 funds. The Agency will be responsible for ensuring that the Community Transportation Coordinator meets all the requirements associated with the federal funds. **Conformance with Enabling Legislation.** This Agreement is in conformance with Section 341.051(6), F.S.

By this agreement, the Department commits funding up to 50% of the non-federal share of the capital costs of an urban fixed-guideway or bus rapid transit (BRT) project, subject to the commitment of local funds in an amount equal to or greater than the state contribution. If this project is seeking Federal Transit Administration (FTA) New Starts or Small Starts funding, the project shall have been approved by the FTA for entry into the Project Development phase of the Capital Investment Grant Program.

Department participation in the project is limited to project development, engineering/final design, right-of-way acquisition, vehicle acquisition and construction. Invoices for cost reimbursement contracts must be supported by an itemized listing of expenditures by category (salary, travel, expenses, etc.). Supporting documentation shall be submitted for each amount for which reimbursement is being claimed indicating that the item has been paid. Documentation for each amount for which reimbursement is being claimed must indicate that the item has been paid. Check numbers may be provided in lieu of copies of actual checks. Each piece of documentation should clearly reflect the dates of service. Only expenditures for categories in the approved agreement budget may be reimbursed. These expenditures must be allowable (pursuant to law) and directly related to the services being provided.

Listed below are types and examples of supporting documentation for cost reimbursement agreements:

1. **Salaries:** A payroll register or similar documentation should be submitted. The payroll register should show gross salary charges, fringe benefits, other deductions and net pay. If an individual for whom reimbursement is being claimed is paid by the hour, a document reflecting the hours worked times the rate of pay will be acceptable.

2. **Fringe Benefits:** Fringe Benefits should be supported by invoices showing the amount paid on behalf of the employee (e.g., insurance premiums paid). If the contract specifically states that fringe benefits will be based on a specified percentage rather than the actual cost of fringe benefits, then the calculation for the fringe benefits amount must be shown.

   **Exception:** Governmental entities are not required to provide check numbers or copies of checks for fringe benefits.

3. **Travel:** Reimbursement for travel must be in accordance with Section 112.061, Florida Statutes, which includes submission of the claim on the approved State travel voucher or electronic means.

4. **Other direct costs:** Reimbursement will be made based on paid invoices/receipts. If nonexpendable property is purchased using State funds, the contract should include a provision for the transfer of the property to the State when services are terminated. Documentation must be provided to show compliance with Department of Management Services Rule 60A-1.017, Florida Administrative Code, regarding the requirements for contracts which include services and that provide for the contractor to purchase tangible personal property as defined in Section 273.02, Florida Statutes, for subsequent transfer to the State.

5. **In-house charges:** Charges which may be of an internal nature (e.g., postage, copies, etc.) may be reimbursed on a usage log which shows the units times the rate being charged. The rates must be reasonable.

6. **Indirect costs:** If the contract specifies that indirect costs will be paid based on a specified rate, then the calculation should be shown.

Contracts between state agencies, and/or contracts between universities may submit alternative documentation to substantiate the reimbursement request that may be in the form of FLAIR reports or other detailed reports.
